

Parent Tadpole Reminders

- Only one parent in the water
- Wait until your Coach invites you into the pool before getting into the water
 - Parent/Tadpole 2 swimmers may sit at the edge of the pool with a parent directly behind them
- While class is going if your swimmer is not participating in the group activity, stay off to the side or on the platforms if they are not being used
 - Do not let your child play on the castle, slide or plank if it is not time for those activities
- If an older swimmer in the Minnows class requires your attention, please ask your Parent/Tadpole coach the best way to approach the situation.
- For safety reasons, stay within arms reach of your child unless instructed by your coach
- Once class is over promptly exit the pool to allow for the next class to come in
